Assembly:

Adjusting the Height

Rotate the handle outwards to your desired height and align it with the mounting holes.

Reassembly:

Reinstall the screws, nuts, and washers as shown in the image.

Always ensure the washer is positioned beneath the nut.

You can install the screws from either the inside or outside, based on your preference.

**Operating Tips:**

Maintain a minimum clearance of 1-2 inches between the top of the filter and the liquid level. Handle the mesh with care, avoiding contact with paddles or spoons, as it can damage the mesh and its welds.

Cleaning and Maintenance:

- To maintain the appearance and cleanliness of your Hop Spider, clean it immediately after brewing, as dried residues are more challenging to remove and can lead to a clogged mesh.
 - Clean your Hop Spider after each use with a mild, unscented detergent, Powdered Brewery Wash (PBW), or percarbonate-based cleaners to clean the Hop Spider.
 - For tough spots, we recommend using Bar Keepers Friend for effective cleaning.
 - Never use bleach for cleaning or sanitizing stainless steel.
- Avoid leaving components in a cleaning solution overnight, as this can damage the product if the contact time exceeds the recommended limits.
